Global Active Portfolios

The Global Active Portfolios are a simple way for international investors to have their investments managed by our experts and are available to clients with a minimum investment of just \$1,000.

There are five funds aimed at different risk tolerances, ranging from Defensive to Adventurous. The Fund predominantly invests in six asset classes - equities, bonds, real assets including commercial property, absolute return funds, commodities, cash and other assets. The Fund may also invest to a lesser extent, in exchange traded funds, investment trusts, direct fixed income products and use derivatives for efficient portfolio management and investment purposes.

The funds are dynamically managed by our Asset Allocation Committee, which is made up of a senior team of investment professionals led by Gareth Lewis, to ensure they meet the ever-changing investment environment and stay in line with their objectives and risk level.

We currently have more than £9 billion of client assets invested in the full range of portfolios.
