Active Portfolios

The Active Portfolios are a range of actively managed collective investment funds, designed to give investors direct access to the ideas generated by the investment process in a simple and tax efficient structure. With ten different strategies, each fund is linked to our sophisticated risk profiling process to ensure investors have exposure to the optimal blend of available asset classes. Drawing on the expertise of our extensive internal research resource and overseen by a dedicated team of the firms most senior investment professionals, each fund is dynamically re-balanced to meet a range of clearly articulated inflation plus return targets.

Investment objectives of the fund

The Sustainable Cautious fund aims to deliver, over the long term, an investment return of capital growth via a multi-asset portfolio of investments which in aggregate demonstrate Environmental, Social and Governance (ESG) and sustainability credentials. The portfolio can invest across most asset classes and adopts a low to moderate risk approach.

Cumulative performance (%)

Cumulative performance can be useful as an indication as to what an investment has or would have achieved for you in real terms over a period and represents the funds overall long-term performance. The performance data is sourced from Morningstar and covers the period 26 April 2021 to 31 March 2024. It is the total return (return inclusive of interest, capital gains, dividends, and distributions), it does not include the impact of tax but does include the impact of the OCF.

The benchmarks used are for comparison only to help you understand the performance of your investment relative to the consumer price index (UK CPI) and in relation to ARC Sterling Balanced Asset PCI. Comparing to CPI can show you how the fund performed versus inflation. While ARC allows you to compare with a cross section of private client portfolios

Past performance is not a guide to future performance. The value of an investment can go down as well as up and you may get back less than the amount invested.

Important Information

Please remember the value of an investment and income derived from it can go down as well as up and you may get back less than the amount invested. Past performance or any yields quoted should never be considered reliable indicators of future returns.

You may face a financial loss should the Fund or the depositary default on their obligations. There is no compensation or guarantee scheme in place which may offset all or any such loss. You are required to read the Key Information Document (KID) before making an investment. The KID, prospectus and supplements for all funds are available free of charge at www.evelyn.com/services/funds/ or by calling 020 3131 6197. All data is as at 31 March 2024 and rounded to nearest 0.1. In difficult market conditions, the Fund may not be able to buy and sell investments at the best time or at a fair price. This could affect the Fund's performance, potentially reducing your returns. Furthermore, if a significant proportion of the Fund's investments suspend trading or defer trades placed the Fund may in turn be suspended or defer payments to investors.

The Sustainable Cautious Portfolio is a sub-fund of Evelyn Partners Umbrella A ICAV, an open-ended Irish collective asset management vehicle which is constituted as an umbrella fund with segregated liability between sub-funds, with variable capital and authorised by the Central Bank of Ireland as a retail investor alternative investment fund. Clean share classes are available as accumulation or distribution shares. The Evelyn Partners Umbrella A ICAV is administered by Citibank Europe plc.
